

## 7 Steps

1

Review resources, previous research, and in-progress research

2

Develop specific research question or hypothesis

3

Complete the Manuscript Analysis Request Form (MARF)

4

Submit the completed MARF to the HHS HRSA EMSC Data Center (EDC) for internal review

5

EDC Team reviews Investigator's completed MARF

Investigator can resubmit the MARF if it is sent back from the EDC Team with comments

6

Meet with the EDC Team and EDC Statistician

7

Review and approve the Manuscript Analysis Plan (MAP)
